CARBON DEGREASER PI 25 kg POWDER DEGREASING Powder product, with high decarbonising power to clean disassembled cylinder heads. Suitable for all kind of metals. It is used at moderate temperatures reducing energy consumptions. It contains protective agents against oxidation.	CARBON DEGREASER 25 kg POWDER DEGREASER FOR ROTATING BASKET USAGE Powder decarbonising detergent used with temperatures between 60° and 80°c in spraying, circulating, ultrasonic, and immersion systems. It does not contain silicates. It is used for the removal of carbon residues, oils, greases.	LIQUID CLEANER 25 kg WATER-BASED MECHANICAL PART DEGREASING Alkaline liquid product, easy to handle with good degreasing power. Used in spraying or mechanical agitation systems for the degreasing of mechanical parts. Suitable for all metals.	CARB CLEANER 6 kg 13 kg 25 kg CARBURETOR DECARBONISATION Carburetor decarbonizer used by cold immersion. It removes carbon deposits, oils and greases, oxide and revives the alloys of the carburetor. It dissolves the old gaskets.	JET 4 5 L 10 L 25 L MECHANICAL PART CLEANING Universal degreasing solvent-based product, for cleaning iron, steel and aluminum parts. It can be used cold by brush, spray, and ultrasound. It is self-cleaning. It does not leave residues and does not attack the caoutchouc or synthetic and insulation materials.	SPECIAL ENGINE 25 kg ENGINE PART DECARBONISATION AND DEGREASING Liquid, alkaline, buffered water-based detergent for degreasing and decarbonising engine parts. It can be effectively used hot with pressure washer. It does not contain chlorinated solvents, phenols, amines or chrome.	TURBIN DECARB 25 kg TURBINE DECARBONISATION Liquid concentrated alkaline-based product specially designed for the removal of carbon residuals, oil, grease and hard scale from engine turbines. It is used by immersion with ultrasonic equipment with a range temperature of 60°- 90°C.	DENV 11 5 kg 25 kg INJECTOR CLEANING BY ULTRASOUND MACHINES Emulsifiable solvent-based liquid detergent suitable for cleaning and degreasing mechanical parts and injectors inside tanks equipped with mechanical stirrer or ultrasonic systems.	RADIATOR PLUS 25 kg ANTIFREEZE LIQUID Protective concentrated antifreeze for cooling circuits of motor vehicles containing corrosion inhibitors and hardness sequestrants. With appropriate water dilution you may obtain a solution that prevents freezing down to -44°c.	DEOX 01 AL 13 kg 25 kg EXTERNAL RADIATOR WASH Acid detergent for deoxidation and cleaning of light alloys and stainless steel engine parts. Recommended for external washing of radiators at the end of winter period to remove dirt and scale.

ROTATING BASKET 1 DIESEL FUEL SYSTEM MULSIREX 1 L 9 kg 23 kg DIESEL FUEL ADDITIVE Additive for diesel fuel. Allows to remove carbon residues, emulsifies all traces of water in the diesel avoiding their accumulation. Carries out a lubricant action on mechanical components of the engine and injection pump.	ROTATING BASKET 1 FAP / DPF FILTERS CLEANING FAP CLEANER 5 kg 25 kg FAP / DPF FILTER CLEANING Product formulated to solve cleaning problems of fap / dpf filters on diesel engine vehicles.	ROTATING BASKET 1 MECHANICAL PART DEGREASING MOTORNET 20 kg MECHANICAL PART DEGREASING Solvent-based degreaser manually used at room temperature with regular equipment. It removes grease, oil, tar and asphalt. Safe for degreasing mechanical parts.	CARBURETORS CLEANING 2 ENGINE COMPARTMENT WASHING LAVMOTOR 5 kg 10 kg 25 kg ENGINE COMPARTMENT WASHING Strong, concentrated, water-based, pleasantly scented degreaser dedicated to the cleanliness of the engine by spraying the engine compartment. The product does not damage paint, gaskets, plastics.	PARTS CLEANING 2 INJECTION SYSTEMS VISCOR 1487/AW-2 25 L FLUSHING AND CALIBRATION FLUID FOR INJECTION SYSTEMS Mixture of refined petroleum and deodorized solvents, containing antifoam and other additives to improve the resistance to aging, corrosion and wear of injection systems. It is even suitable for cleaning the system before calibration.	ENGINE PARTS DEGREASING 4 FLOOR GARAGE CLEANING BRIX 13 kg 26 kg FLOOR CLEANING Low foam caustic concentrated detergent formulated with organic sequestrant agents. It is recommended for the hard cleaning of floors using sweepers. Particularly suitable for cement, gres and asphalt.	TURBINE DECARBONISATION 4 GARAGE CLEANING AIR YELLOW 10 kg 25 kg STRONG WORKSHOP SURFACE CLEANING BEST 5 kg 10 kg AMMONIA BASED TOILET DETERGENT NO ICE PLUS 5 kg 25 kg ECO-FRIENDLY DE-ICER	ULTRASOUND COLD IMMERSION 4 ORDINARY MAINTENANCE FREN 500 ml BRAKING SYSTEM MAINTENANCE SANIX FS FAN SPRAY 400 ml AIR CONDITIONING SANITIZER GLIST 5 kg 10 kg CONCENTRATED ALCOHOL-BASED GLASS CLEANER	COOLING CIRCUITS 8 ORDINARY MAINTENANCE SGRIP SPRAY 400 ml REPELLENT LOOSENER ELECTRIC SOLVENT 400 ml DEOXIDATION ELECTRIC CONTACTS MAGIK SPRAY 400 ml DEOXIDATION, PROTECTION, CLEANING, DEGREASING	EXTERNAL RADIATOR WASH 8 HANDWASHING SOAP/PASTE JOB 5 kg STRONG VISCOUS HANDWASHING SOAP MANINET 4 L HANDWASHING PASTE MANIBIANC 4 L WHITE HANDWASHING PASTE
